

Bluestone Child and Adolescent Psychiatric Hospital Price Transparency

Bluestone has an all-inclusive daily rate (per diem) for inpatient services. The per diem represents the standard charge for each day of inpatient care and includes the routine services provided as part of the inpatient treatment program. Because charges for these services are bundled into the per diem rate, our shoppable services are limited to our standard Room and Board Per Diem, as described in more detail below.

The inpatient per diem includes, as applicable:
